If you were giving estimates for the following numbers would you round them to the nearest ten, hundred, thousand, ten thousand, hundred thousand or million (or even more!)?

1. The number of children in a class.
2. The number of children in a school.
3. The distance, in kilometres, from the Earth to the sun.
4. The distance, in kilometres, from London to Dover.
5. The number of people in the world.
6. The number of people on a full coach.
7. The number of insects in the world.
8. The number of types of sweets in a supermarket.
9. **Draw and complete the table below, rounding the numbers to ten, hundred, thousand and ten thousand:**

NUMBER	ROUND TO 10	ROUND TO HUNDRED	ROUND TO THOUSAND	ROUND TO TEN THOUSAND
26 489				
37 591				
46 668				
21 012				
38 903
