

Try subtracting these single
digits from multiples of 100.

1. $600 - 7 =$

2. $400 - 5 =$

3. $800 - 9 =$

4. $200 - 4 =$

5. $300 - 6 =$

6. $500 - 8 =$

7. $600 - 5 =$

8. $900 - 9 =$

9. $700 - 6 =$

Now try subtracting these single
digits from multiples of 1000.

10. $5000 - 8 =$

11. $3000 - 4 =$

12. $9000 - 2 =$

13. $1000 - 6 =$

14. $2000 - 3 =$

15. $6000 - 7 =$

16. $7000 - 9 =$

17. $8000 - 5 =$

18. $9000 - 8 =$

Subtract a single digit from a multiple of
