

Work out what your calculator will show when 10 is taken away from each of the numbers below.

Then check your answer on the calculator.

Number	Take 10	Calc. check
200		
400		
670		
1010		
4000		
50500		
20000		
68000		
303000		
101010		

Number	Take 10	Calc. check
700		
410		
300		
6060		
8000		
20100		
13000		
54000		
204000		
780900		

You may be able to turn your calculator into a 'take 10' machine. Key in $-$ then 10 then $=$ then press the number to take 10 from and $=$ again to give the answer. Then key in the next number and $=$ and so on.

Answers

You shouldn't need this page as you are checking answers on a calculator,
but it is here anyway!

Number	Take 10	Number	Take 10
200	190	700	690
400	390	410	400
670	660	300	290
1010	1000	6060	6050
4000	3990	8000	7990
50500	50490	20100	20090
20000	19990	13000	12990
68000	67990	54000	53990
303000	302990	204000	203990
101010	101000	780900	780890
