

Addition

**Without using a pencil and paper method, work the answers out to these three number addition problems:**

1.  $36 + 44 + 10$     2.  $38 + 42 + 40$     3.  $37 + 53 + 20$     4.  $69 + 27 + 51$

5.  $69 + 21 + 55$     6.  $72 + 38 + 63$     7.  $51 + 29 + 40$     8.  $18 + 42 + 36$

9.  $36 + 44 + 16$     10.  $54 + 46 + 21$     11.  $36 + 42 + 14$     12.  $35 + 29 + 45$

**Remember:  $338 + 247$  is the same as  $247 + 338$ .**

**So we can write:**

$$338 + 247 = 247 + 338$$

**They both come to 585.**

**In the same way:**

$$417 + 239 = 239 + 417$$

Easy - but remember it when you have lists to add up - in any order!

**Fill in the gap in the sums below:**

13.  $6\,350 + 2\,470 = 2\,470 + \square$

14.  $3\,095 + 2\,870 = \square + 3\,095$

15.  $7\,303 + 4\,489 = \square + 7\,303$

16.  $4\,170 + 9\,867 = 9\,867 + \square$
