

Addition

**Without using a pencil and paper method, work the answers out to these three number addition problems:**

**( You may like to time yourself, to see how quickly you can do these!)**

**1.**  $148 + 34 + 26$    **2.**  $185 + 23 + 57$    **3.**  $16 + 280 + 14$    **4.**  $162 + 55 + 38$

**5.**  $141 + 38 + 22$    **6.**  $172 + 41 + 18$    **7.**  $119 + 11 + 60$    **8.**  $65 + 21 + 125$

**9.**  $28 + 41 + 132$    **10.**  $53 + 52 + 135$    **11.**  $61 + 35 + 104$    **12.**  $103 + 24 + 43$

**Reminder:**  $4\ 122 + 3\ 255$  is the same as  $3\ 255 + 4\ 122$ .

So we can write:

$$4\ 122 + 3\ 255 = 3\ 255 + 4\ 122$$

They both come to 7 377.

**In the same way:**

$$6\ 789 + 5\ 432 = 5\ 432 + 6\ 789$$

**Fill in the gap in the sums below:**

**13.**  $2\ 480 + 21 + 365 = 21 + \boxed{\phantom{00000}} + 365$

**14.**  $81 + 82 + 802 = 82 + 81 + \boxed{\phantom{00000}}$

**15.**  $2\ 389 + 376 + 99 = 376 + 2\ 389 + \boxed{\phantom{00000}}$

Did you remember to look at units for numbers that add up to ten?
