

**Making addition sums**

There are at least two ways of doing these.

1.  $\square + \square = 5$  or  $\square + \square = 5$

2.  $\square + \square = 2$  or  $\square + \square = 2$

3.  $\square + \square = 9$  or  $\square + \square = 9$

4.  $\square + \square = 10$  or  $\square + \square = 10$

5.  $\square + \square = 1$  or  $\square + \square = 1$
