

Maths Vocabulary for Reception: Adding and subtracting

Here is the next list of the vocabulary that children at the end of their Reception Year (4/5 years old) should be familiar with. These words are all to do with addition and subtraction.

After this list is a set of pages with each word written in a large font size which can be copied, cut out and used as flash cards or as display. Cover them with sticky back plastic or if you have access to a laminator, even better!

ADDITION AND SUBTRACTION

add

more

make, sum, total

altogether

score

double

one more, two more etc up to ten more

one less, two less etc up to ten less

how many more to make

how many more is...than...?

take, take away

leave

how many are left?

how many have gone?

fewer

difference between
