

There is an excellent list of the vocabulary children need to understand and use in the reception worksheet section. The following list has the new words that they should come across in school during year 1 to do with calculating and solving problems.

Words to do with calculating and solving problems:

plus near double

how much more is...? how much less is...?

subtract minus

half halve

equals sign

number sentence

operation

The attached pdf has all these words written twice: once so that they can be traced over and larger so that they can be cut out or used as 'flash cards' etc.

plus

near double

how much more is ?

how much less is ?

subtract

minus

half

halve

equals

sign

number sentence

operation

plus

near double

how much
more is ?

how much
less is ?

subtract

minus

half

halve

equals

sign

number
sentence

operation
