

$$1 \times 7 = 7$$

$$2 \times 7 = 14$$

$$3 \times 7 = 21$$

$$4 \times 7 = 28$$

$$5 \times 7 = 35$$

$$6 \times 7 = 42$$

$$7 \times 7 = 49$$

$$8 \times 7 = 56$$

$$9 \times 7 = 63$$

$$10 \times 7 = 70$$

Another of the harder tables, this time the 7 times table. Many people think this is the hardest of all as there is very little pattern to it and the answers cannot easily be worked out from knowledge of other tables.

Once again there is nothing especially 'catchy' to remember about this table, it is pretty much just hard work. It should not be learnt until the 2, 3, 4, 5 and 10 times tables have been learnt. If this has been achieved, then over half the 7 times table has already been mastered!

The whole idea of tables is that they are learnt, off by heart. To do this it is essential to say them out loud:

One times seven is seven

two times seven is fourteen

three times seven is twenty one

four times seven is twenty eight

five times seven is thirty five

six times seven is forty two

seven times seven is forty nine

eight times seven is fifty six

nine times seven is sixty three

ten times seven is seventy

Below are two worksheets for the seven times table. A good way to do these is to time them to see how long your child takes.

When you get really good with a table you should be able to say it in under ten seconds (missing out unnecessary words ie one seven, seven; two sevens, fourteen...etc).

$8 \times 7 =$

$5 \times 7 =$

$6 \times 7 =$

$2 \times 7 =$

$10 \times 7 =$

$4 \times 7 =$

$7 \times 7 =$

$3 \times 7 =$

$9 \times 7 =$

$1 \times 7 =$

$1 \times 7 =$

$8 \times 7 =$

$9 \times 7 =$

$5 \times 7 =$

$3 \times 7 =$

$7 \times 7 =$

$10 \times 7 =$

$6 \times 7 =$

$2 \times 7 =$

$4 \times 7 =$

Page 3

$$8 \times 7 = 56$$

$$5 \times 7 = 35$$

$$6 \times 7 = 42$$

$$2 \times 7 = 14$$

$$10 \times 7 = 70$$

$$4 \times 7 = 28$$

$$7 \times 7 = 49$$

$$3 \times 7 = 21$$

$$9 \times 7 = 63$$

$$1 \times 7 = 7$$

Page 4

$$1 \times 7 = 7$$

$$8 \times 7 = 56$$

$$9 \times 7 = 63$$

$$5 \times 7 = 35$$

$$3 \times 7 = 21$$

$$7 \times 7 = 49$$

$$10 \times 7 = 70$$

$$6 \times 7 = 42$$

$$2 \times 7 = 14$$

$$4 \times 7 = 28$$
