

Try to find two different ways to complete these sums.

1. $\square + \square = 6$ or $\square + \square = 6$

2. $\square + \square = 3$ or $\square + \square = 3$

3. $\square + \square = 5$ or $\square + \square = 5$

4. $\square + \square = 2$ or $\square + \square = 2$

5. $\square + \square = 7$ or $\square + \square = 7$

Answers

1. Any two numbers which make 6 eg $2 + 4$ and $1 + 5$
2. Any two numbers which make 3 eg $1 + 2$ and $2 + 1$
3. Any two numbers which make 5 eg $3 + 2$ and $0 + 5$
4. Any two numbers which make 2 eg $1 + 1$ and $0 + 2$
5. Any two numbers which make 7 eg $2 + 5$ and $3 + 4$
