

Subtraction of money (1)
Maths worksheets from mathsblog.co.uk

$$\begin{array}{r} \text{£ } 5 \overset{3}{\bullet} \overset{1}{4} 6 \\ - \text{£ } 3 \bullet 1 7 \\ \hline \text{£ } 2 \bullet 2 9 \end{array}$$

Remember to keep the decimal points in a column so they line up under each other.

Try subtracting these:

1. $\text{£ } 4.65$
 $- \text{£ } 1.52$

2. $\text{£ } 4.28$
 $- \text{£ } 2.30$

3. $\text{£ } 7.91$
 $- \text{£ } 2.95$

4. $\text{£ } 2.08$
 $- \text{£ } 0.43$

5. $\text{£ } 8.61$
 $- \text{£ } 6.66$

6. $\text{£ } 3.74$
 $- \text{£ } 0.98$

7. $\text{£ } 4.81$
 $- \text{£ } 1.79$

8. $\text{£ } 9.80$
 $- \text{£ } 7.96$

Now try subtracting these, using the same method as above:

9. $\text{£}3.84 - \text{£}2.65$

10. $\text{£}4.56 - \text{£}3.69$

11. $\text{£}8.05 - \text{£}1.18$

12. $\text{£}7.37 - \text{£}5.04$

13. $\text{£}5.82 - \text{£}2.26$

14. $\text{£}6.82 - \text{£}3.83$

15. $\text{£}6.21 - \text{£}4.77$

Write these out in columns so that the decimals line up under each other.
