

Multiplication of money (2)
 Maths worksheets from mathsblog.co.uk

$$\begin{array}{r}
 \text{£ } 2 \cdot 34 \\
 \times \quad 5 \\
 \hline
 \text{£ } 11 \cdot 70 \\
 \begin{array}{cc}
 1 & 2 \\
 \hline
 \end{array}
 \end{array}$$

Remember to keep the decimal points in a row so they line up under each other.

Try multiplying these:

1. $\text{£ } 2.56$
 $\times 4$ _____

2. $\text{£ } 3.78$
 $\times 4$ _____

3. $\text{£ } 5.50$
 $\times 6$ _____

4. $\text{£ } 5.95$
 $\times 6$ _____

5. $\text{£ } 4.56$
 $\times 5$ _____

6. $\text{£ } 5.20$
 $\times 7$ _____

7. $\text{£ } 8.38$
 $\times 6$ _____

8. $\text{£ } 9.04$
 $\times 7$ _____

Now try these, using the same method as above:

9. $\text{£}5.98 \times 5$

10. $\text{£}6.78 \times 4$

11. $\text{£}7.25 \times 6$

12. $\text{£}8.16 \times 3$

13. $\text{£}9.37 \times 6$

Write these out in columns and don't forget the decimal point.

14. $\text{£}8.79 \times 7$

15. $\text{£}7.03 \times 6$
