Year 4: Equivalent fractions: equal, largest or smallest Maths worksheets from mathsblog.co.uk

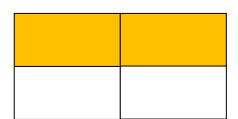

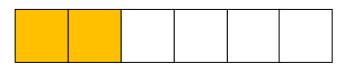

Remember four eighths is equal to two quarters.

The fraction shaded is 8

This is the same as $\frac{2}{2}$

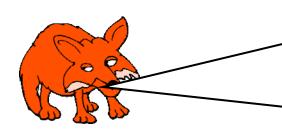

Two sixths is equal to one third.

The fraction shaded is $\frac{2}{6}$

This is the same as $\frac{1}{3}$

If I had cut a cake into three equal pieces and eaten one I would have the same as if I had cut the same cake into six pieces and eaten two!

Go on, try it out. (But a slice of bread might be better — and don't cut yourself!)
