On the grid shade in the top, left hand square.

Now use a different colour to shade in the next biggest square on the grid as shown here.

# Year 5: Square Numbers (3) 

Maths worksheets from mathsblog.co.uk

The first square was made by shading one square.
The second square was made by shading $1+3=4$ squares.
The third square was made by shading $1+3+5=9$ squares.
Carry on making the next biggest square each time until the whole $10 \times 10$ square has been shaded.

Note how many you add each time.
The fourth square was made by shading

The fifth square was made by shading

The sixth square was made by shading

The seventh square was made by shading

The eighth square was made by shading

The ninth square was made by shading

The tenth square was made by shading

Make a rule about how many you add each time.

## Year 5: Square Numbers (3) <br> Maths worksheets from mathsblog.co.uk

## Answers

The fourth square is made by adding 7 more.
Fifth: 9 more
Sixth: 11 more
Seventh: 13 more
Eighth: 15 more
Ninth: 17 more
Tenth: 19 more
A rule; something along the lines of: Adding 2 more each time, or adding the next odd number.
