

This is a game for 2 players. They each need a different coloured pen and a calculator (to check answers in the case of a dispute).

Player one (with a red pen) goes first and chooses a square and writes down the correct answer to the sum.

Then player 2 (with a blue pen) does the same.

The aim of the game is to get a run of four correct answers in a row, either across, down or diagonally, using only your colours.

You can colour the correct squares if this makes it easier to see the row of 4.

You can make some rules up for yourself. For example: two incorrect answers could lose you the game, or give the other person a free go. You decide!!

FOUR IN A ROW ADDITION GAME

$6 + 3$ <input type="text"/>	$2 + 4$ <input type="text"/>	$3 + 5$ <input type="text"/>	$4 + 8$ <input type="text"/>	$5 + 2$ <input type="text"/>
$0 + 2$ <input type="text"/>	$7 + 3$ <input type="text"/>	$8 + 1$ <input type="text"/>	$1 + 5$ <input type="text"/>	$9 + 6$ <input type="text"/>
$5 + 5$ <input type="text"/>	$3 + 4$ <input type="text"/>	$7 + 2$ <input type="text"/>	$6 + 9$ <input type="text"/>	$1 + 8$ <input type="text"/>
$2 + 4$ <input type="text"/>	$5 + 7$ <input type="text"/>	$0 + 8$ <input type="text"/>	$3 + 6$ <input type="text"/>	$8 + 7$ <input type="text"/>
