

Add decimals mentally
Maths worksheets from mathsblog.co.uk

1. $3.1 + 4.2 =$

2. $4.6 + 2.4 =$

3. $5.4 + 1.8 =$

4. $7.3 + 2.7 =$

5. $6.4 + 4.6 =$

6. $5.5 + 5.5 =$

Remember, you can use the same method as when adding T.U. in your head.

When 3.1 add 4.2
I would start by adding the 3 and the 4 and then add on the decimals.

Put in the missing decimal to make these sums correct:

7. $0.3 +$ $= 1$

8. $0.6 +$ $= 2$

9. $0.4 +$ $= 3$

10. $0.1 +$ $= 5$

Now try adding these decimals.

11. $0.6 + 0.3 + 1.2 =$

12. $0.4 + 1.3 + 0.6 =$

13. $1.9 + 0.9 + 0.1 =$

14. $1.3 + 1.3 + 1.3 =$
