

Subtraction of money (2)
Maths worksheets from mathsblog.co.uk

$$\begin{array}{r} \text{£ } 6 \overset{3}{\cdot} 4 \overset{1}{5} \\ - \text{£ } 4 \cdot 1 7 \\ \hline \text{£ } 2 \cdot 2 8 \end{array}$$

Remember to keep the decimal points in a column so they line up under each other.

Try subtracting these:

1. $\text{£ } 5.50$
 $- \text{£ } 2.43$

2. $\text{£ } 5.18$
 $- \text{£ } 3.20$

3. $\text{£ } 8.80$
 $- \text{£ } 3.85$

4. $\text{£ } 3.07$
 $- \text{£ } 1.23$

5. $\text{£ } 9.50$
 $- \text{£ } 7.56$

6. $\text{£ } 4.13$
 $- \text{£ } 1.89$

7. $\text{£ } 5.70$
 $- \text{£ } 2.16$

8. $\text{£ } 8.10$
 $- \text{£ } 7.06$

Now try subtracting these, using the same method as above:

9. $\text{£}4.13 - \text{£}2.55$

10. $\text{£}7.06 - \text{£}3.15$

11. $\text{£}6.04 - \text{£}2.17$

12. $\text{£}8.38 - \text{£}4.09$

13. $\text{£}7.63 - \text{£}3.17$

14. $\text{£}6.84 - \text{£}4.86$

15. $\text{£}5.21 - \text{£}1.25$

Write these out in columns so that the decimals line up under each other.
