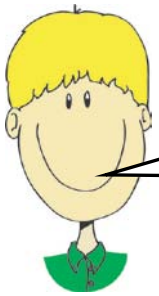
My day

Maths worksheets from mathsblog.co.uk



Hi! Can you help me work out the correct measurements in my diary.

Circle the most sensible measurements in each sentence.

7.30 a.m. I got dressed in 2 (seconds, minutes, hours).

7.45 a.m. For breakfast I had a bowl of cereal with 100 (litres, millilitres) of milk and a glass of water.

8.30 a.m. I set off for school which is half a (kilometre, metre) away. It took me 10 (seconds, minutes, hours) to walk there.

10.30 a.m. We had a short break of 15 (days, minutes, seconds) and I ate my 50 (kilogram, gram) snack bar. It was lovely!

2.00 p.m. We had a games lesson and we practised throwing a tennis ball. I threw it 30 (kilometres, metres). I then ran 100 (metres, centimetres) in 21 seconds.

3.00 p.m. Mum picked me up in the car as it was raining. It only took 3 (hours, minutes, seconds) to get home.

3.15 p.m. I ate a 100 (kilogram, gram) apple and played a game with my sister.

6.00 p.m. I watched a film on television. It lasted 1 (hour, minute, second.)

7.30 p.m. I had a drink of hot chocolate and then got ready for bed which took me five (seconds, minutes, hours.)
