

Multiplying by 5 by multiplying by 10 and halving

Maths worksheets from mathsblog.co.uk

There's an easy way to multiply by 5. Just multiply by 10 and halve the answer!

Or the other way round if the number is even.
(Halve the number and then multiply by 10.)

Try multiplying these numbers by 5 in your head.

1. 22×5  

2. 34×5  

3. 42×5  

4. 56×5  

5. 62×5  

6. 74×5  

7. 27×5  

8. 35×5  

9. 43×5  

10. 51×5  

11. 67×5  

12. 77×5
