

## More on reading the time (12 hour clock)

Maths worksheets from [mathsblog.co.uk](http://mathsblog.co.uk)

We often use different ways for saying the same time. We need to know these different ways.

Write these times in digits: e.g. quarter past 4 is 4:15

1. quarter past 6 .....
2. quarter to 3 .....
3. half past 6 .....
4. three forty five .....
5. ten to ten .....
6. one minute to midnight .....

Write these times in words:

7. 2:30 .....
8. 5:10 .....
9. 1:15 .....
10. 8:20 .....

When the minutes go past the half hour we say ‘...minutes to the next hour’.

e.g. 4:55 is five minutes to five.

Write these times in words using ‘minutes to’:

11. 5:50 .....
12. 9:45 .....
13. 10:35 .....
14. 7:59 .....

Now try working these times out:

15. half an hour after 10:45 .....
16. half an hour before 6:10 .....
17. quarter of an hour before 4:55 .....
18. three quarters of an hour after 8:20 .....
