

Here is part of the division table for 3.
Can you spot the patterns?
Can you learn it off by heart?

3 divided by 3 is 1

6 divided by 3 is 2

9 divided by 3 is

12 divided by 3 is

divided by 3 is 5

18 divided by 3 is

divided by 3 is 7

24 divided by 3 is

divided by 3 is 9

30 divided by 3 is

Fill in the blank spaces with the correct numbers. I bet you will find it easy.....but can you also learn it off by heart?

Now try some quick division questions. If you know the 3x table they will be really easy.

1. $9 \div 3 = \square$

2. $30 \div 3 = \square$

3. $12 \div 3 = \square$

4. $27 \div 3 = \square$

5. $3 \div 3 = \square$

6. $24 \div 3 = \square$

7. $6 \div \square = 2$

8. $15 \div \square = 5$

9. $\square \div 3 = 6$

10. $\square \div 3 = 7$

11. $15 \div 3 = \square$

12. $6 \div 3 = \square$

13. $21 \div 3 = \square$

14. $18 \div 3 = \square$

Answers
