

Here are some problems written in words. They look quite long and they are all about using money.

Think carefully about what you have to do to answer them. Show your working out or you will not gain full marks.

1. A felt marker pen costs £0.85.
What will 55 pens cost?
2. A pencil costs 34p and a pen costs 45p. How much will ten pencils and sixteen pens cost?
3. How many pads of paper costing two pounds eighty each could you buy for £20.00.
4. What is the total value of three twenty pound notes, five ten pound notes, six five pound notes, nine fifty pence coins and sixteen twenty pence coins?
5. Sam saves £2.75 a week from his pocket money.
How much will he have saved in 52 weeks?

Answers

1. £46.75 1 mark
Long multiplication layout 1 mark
2. £10.60
Total of pencils (£3.40) and pens (£7.20) shown 1 mark
3. 7 1 mark
Either trial and error multiplying £2.80 1 mark
